Homemakers Items

A business center in any home will help affairs run smoother, and avoid the waste of time spent hunting for a bill or receipt. The business center calls for a good writing surface, a sturdy and comfortable chair, a good light, a convenient place for current records and unpaid bills, a safe or metal lock box for valuable papers, small boxes or drawer dividers to keep miscellaneous supplies straight, and, of course, the necessary accessories such as pen, ink pencil sharpener, and waste basket.

More juice can be obtained from a lemon if the fruit is allowed to set in hot water for several minutes before being squeezed.

It pays to read the label on garments if you want to keep them in best condition.

If a label says "hand washable," wash the garment separately by hand, using lukewarm water and mild soap or detergent (no bleaching agent) and dry away from sun and heat.

If a label says "Machine washable in lukewarm water," it means to wash under careful home laundering or commercial conditions. Use warm, not hot, water, and no bleaching agent. Dry away from heat or sun. If you use a tumble dryer, follow the manufacturer's instructions.

Just the words "machine washable" mean wash under home or commercial laundering conditions, do not boil or use bleaching agents, and dry away from direct sunlight.

If the tag says "washable" it means wash any way. Bleaching agents can be used, and the garment can be dried in the sun.

The Soviet Union has begun to buy comparatively large quantities of cotton in Sudan, as part of a trade offensive in the Middle East.

Dr. Edwin G. Nourse, former chairman of the President's Council of Economic Advisors, said a "built-in inflationary mechanism" had been developed between business and labor since the war.

Health and Beauty

It is possible to eat your way to loveliness and better health. If you are nervous, fretful, and nothing goes right, you need vitamin C. Your complexion may be sallow, lines tend to form before they should, blemishes are a problem. All you may need is more vitamin B in your diet.

If you tire easily, for no particular reason, you will probably feel better if you increase your intake of vitamin D.

Some food authorities say that the best foods containing the most vitamins to give you the greatest beauty are those foods that are eaten in their natural state.

Today many of us are forced to live our daily lives under considerable stress and tension. It may not be possible for us to eliminate the cause of stress and tension from our lives but we can learn to live with these conditions so that they will do as little harm to our bodies as possible.

Under stress some vitamins are destroyed or their value diverted. Of all the vitamins, vitamin C has been more completely investigated with regard to possible effect of stress. For this reason, it has been recommended that liberal amounts of fresh fruits or fruit juices be included in the diet of those living under tension.

The inclusion of a good all-round vitamin tablet in your daily diet is wise.

About The Home

By Frances Dell

There are countless small and large things that go to make up a happy and beautiful home. The cornerstone is the family itself. Every member of the family should love the home and think it is important.

This love for the home has nothing to do with the house the family lives in. We all know that some of the most unhappy homes and many broken homes are found in the upper income level.

Try to develop a feeling of comradeship and unity among the different members of the family. One way this can be accomplished is to give small household chores to each member right down to the youngest child.

It is also very important to make each member feel completely at home. If Dad wants a comfortable reading chair that may be no beauty but that just should have it.

The children should in the home to mi matter how small, this place is a "place children responsible their pajamas their toys in some Don't overdo this but will take the pressu
